What is the new purpose

In which reality would this make sense? (for A)

→ likely acts of business

Programming lists that primarily states where the pieces when put together can only lead to this reality and no other

in defined disparate DISJOINTED (and related) → stress + fear

→ So benchmarking is not as much as
 in-tensions thing 'it is something you
 remember but cannot correctly fully evaluate

in a way that the (V) pricing keeps running
 in circles around the past period where he/she
 was very handicapped.
